TRADITIONAL CULTURAL PLACE/LANDSCAPE FORM

NOTE: This form is for reporting Traditional Cultural Places (TCP) and Traditional Cultural Landscapes (TCL), as defined in [National Register Bulletin 38](#). Completing this form and submitting it to the Michigan SHPO will ensure that the (TCP/L) is documented. This form does not take the place of a National Register of Historic Places nomination but, can provide information necessary for a TCP/L to be recognized and considered under Section 106 of the National Historic Preservation Act.

The information provided in this form will be available to SHPO staff and consultants conducting research using SHPO records. Because of this, we recommend that the form omit any culturally sensitive information that should not be shared outside of the community. Provide only enough information here to describe the TCP/L and that supports your National Register of Historic Places evaluation.

Questions can be directed to Katie Kolokithas (kolokithask1@michigan.gov) for TCP/Ls with architectural components and/or Kate Frederick (frederickk1@michigan.gov) for TCP/Ls with archaeological components.

NAME

TCP/L NAME: The TCP name should be the historic and/or culturally used name associated with the TCP/L.

OTHER PLACE NAMES: If there are multiple names associated with the TCP/L, then list them here.

ENGLISH TRANSLATION (if name is language other than English): If the TCP name is in a language other than English, you can include an English translation of the name here. An English translation is not required.

BRIEF DESCRIPTION (overview/synopsis): Provide a narrative overview of the TCP/L here. At minimum, this should include a summary of: 1) the geographic extent and boundaries of the TCP/L, 2) the community or communities associated with the TCP/L, 3) how the TCP/L is rooted in that community's history, 4) the contributing cultural and natural features of the TCP/L, and 5) why the TCP/L is important in maintaining the continuing cultural identity of the community. We recommend reading National Register Bulletin 38 before preparing this description.

LOCATION

In the table, complete the name of the Civil Township and the Township, Range, and Section coordinates for all townships that the TCP/L lies within. Add additional lines to the table as necessary.

TOWNSHIP NAME	TOWNSHIP	RANGE	SECTION/PRIVATE CLAIM

LAT/LONG COORDINATES FOR A MINIMUM OF FOUR CORNERS (in decimal degrees):

In the blanks provided, insert the Latitude and Longitude coordinates for the boundaries of the TCP/L. At minimum, this should be four coordinates, but additional coordinates can be added to the form. Please record these as decimal degrees.

If the location of the TCP/L is sensitive and should not be shared outside the community that recognizes the TCP/L, then generalize the location information by providing a larger area than the actual TCP and check the "Culturally Sensitive" box in the Reliability of TCP/L Boundaries section.

METHOD LAT/LONG COORDINATES COLLECTED: Indicate how the coordinates were collected by checking the appropriate box below.

☐ INTERPOLATED FROM USGS QUAD ☐ GPS FIELD COLLECTED, GPS ACCURACY (in meters): If GPS coordinates collected, then enter the estimated field accuracy of the GPS in meters.

RELIABILITY OF TCP/L BOUNDARIES: Indicate the reliability of the coordinates by checking the appropriate box below.

☐ EXCELLENT ☐ APPROXIMATE ☐ UNVERIFIED ☐ CULTURALLY SENSITIVE

TCP/L ACREAGE: Estimate the total acreage of the TCP/L.

TCP/L CHARACTERISTICS & ASSOCIATION (Describe the physical characteristics of the TCP/L and site(s) or features that comprise it, and associated natural resources): Use this section to provide additional detail about the contributing cultural and natural features of the TCP/L. This narrative should include any existing or previously documented architectural or archaeological sites that contribute to the TCP/L.

PERIOD OF SIGNIFICANCE: Summarize the date(s) associated with the period of use for the TCP/L. Include the earliest known use, through present day, as TCP/L are defined as places that continue to have cultural importance for a community.

TCP/L SIGNIFICANCE (PROVIDE A NARRATIVE ABOUT THE CHARACTERISTICS THAT GIVE THE TCP/L SIGNIFICANCE TO A COMMUNITY): Use this section to provide a narrative that describes how the TCP/L is significant to the community that defines it. This narrative should provide enough information to demonstrate significance and continued connection to the place, without revealing culturally sensitive information.

TCP/L INTEGRITY (Describe any current disturbances to the TCP/L that may impact integrity or affect the community's relationship to the TCP/L): Discuss any disturbances to the TCP/L that may impact integrity or affect the community's relationship to the TCP/L.
