Project overview
Located in the historic district of downtown Metamora, the project restored and expanded the historic White Horse Inn into a full service restaurant. A historic portion of the original White Horse Inn, approximately 3,000 square feet, has been restored. Approximately 7,000 square feet has been demolished to make way for a newly constructed addition. That will make the new and renovated White Horse Inn a total of approximately 11,000 square feet. The total investment for this project is $1.8 million and the developer expects to create the equivalent of 38 new, full-time jobs.

MEDC investment: $570,000 Community Development Block Grant

Private investment: $965,250

Local investment: $300,000

Jobs created: 38
