

Consultants Meeting Federal Qualifications for Archaeology, History, and Architectural History

Contact: Katie Kolokithas, Survey Coordinator

Phone: 517-285-9248

Email: kolokithask1@michigan.gov

The Michigan State Historic Preservation Office does not permit or license consultants, this list is provided as a courtesy. The individuals in this list have provided documentation to the state historic preservation office that they meet the minimum federal professional qualifications set forth in 36 CFR Part 61. **Inclusion in this list does NOT constitute endorsement by the State Historic Preservation Office, Michigan Economic Development Corporation or the Michigan Strategic Fund, nor does it guarantee that any work product carried out by persons on the list will necessarily meet federal and state requirements.** Before engaging the services of any consultant, it is always advisable to contact references named by the consultant -- especially those people for whom a consultant has worked. Inquiring about the nature of the project and the quality and timeliness of the work performed may provide an indication of a consultant's ability to successfully complete your project.

Companies/institutions may list a maximum of two people and two office locations per subfield. This list is updated twice annually in January and June and is alphabetized by company/institution.

The list is divided into two sections and four subsections.

1. Archaeological Consultants

- a. Archaeological Consultants *Those who submitted additional credentials as prehistoric and/or historic archaeologists have this listed with their names.*
- b. Maritime Specialists *Federally qualified archaeologists specializing in underwater research.*

2. Historians and/or Architectural Historians

- a. Historian/Architectural History Consultants *Those meeting the qualifications as either historian, architectural historian, or both*

1a. Archaeological Consultants
