

Michigan Library and Historical Center | Downtown Lansing

A black and white photograph of a scuba diver in full gear, including a tank and mask, swimming over an underwater archaeological site. The site consists of numerous wooden planks and beams, some of which are arranged in a grid-like pattern, suggesting a submerged structure or a large-scale excavation. The water is clear, and the lighting is dramatic, highlighting the textures of the wood and the diver's equipment.

Michigan Archaeology Day 2014

Saturday, October 18, 2014 | 10:00am-4:00pm

Welcome to Michigan Archaeology Day 2014

Today we are showing you the cool projects archaeologists are working on right here in Michigan. In the Forum auditorium, archaeologists will give presentations about their work. On the second floor of the museum, archaeologists from around the state will display artifacts from different sites, ranging from downtown Detroit to the bottomlands of Lake Huron. Kids will love the hands-on activities, and everyone can try throwing a spear using an atlatl. So walk through the galleries, have a seat in the auditorium, make a clay pinch pot—**please ask lots of questions**—and have fun!

Presentations

Forum, 11:00am–3:00pm

Introductions by Dr. Dean Anderson, State Archaeologist

11:00am

Forty-five Years of Public Archaeology at Chippewa Nature Center

Presenter: Dr. Scott G. Beld, University of Michigan

For almost a half century, Chippewa Nature Center has collaborated with professional and avocational archaeologists in conducting a public archaeology program on its 1,200 acres along the Pine and Chippewa rivers near Midland. This program has included surveys of nature center property that looked for archaeological sites, as well as archaeological excavation at prehistoric and historic sites. This talk will describe these projects, including investigation of a prehistoric late Middle Woodland (ca. 500 A.D.) campsite, an 1820s Chippewa household and an 1830s settler's cabin.

Noon

Grand Island Archaeology: Exploring the Prehistory and History of Lake Superior's South Shore

Presenter: Dr. James Skibo, Illinois State University

The Grand Island Archaeological Project has been conducting research on the island since 2001. More than 200 sites have been found, and several have been intensively explored. Project archaeologists have investigated the island's earliest inhabitants, who lived there roughly 3,000 years ago during the Late Archaic Period. They have studied sites from the Initial and Late Woodland periods, as well as Contact Period occupations and sites associated with the hotel and resort era. This presentation will review some of the archaeological work conducted on the island, focusing on three topics: the initial Archaic hunter-gatherers, the first pottery makers and the period of the first Euro-American occupation.

1:00pm

Immigrant Experiences in the Irish Enclave of Beaver Island, Michigan, 1856–1903

Presenter: Dr. Deb Rotman, University of Notre Dame

Beaver Island was a unique settlement location for Irish America during the late 19th century

as families emigrated from Árainn Mhór, an island off the coast of County Donegal, to northern Lake Michigan. Irish immigrants were able to reproduce many aspects of their fishing and farming lifeways and establish a thriving ethnic enclave. A Mormon sect that had previously occupied the island, however, had influenced the cultural landscapes and material conditions that the Irish encountered, and the immigrants inherited that social and ecological legacy. Utilizing archaeological and historical data, Dr. Rotman explores the influences of cultural groups upon one another and the social and physical worlds that individuals inhabited, experienced and transformed on Beaver Island.

2:00pm

Nautical Archaeology in Northwestern Michigan

Presenter: **Dr. Mark W. Holley, Northwestern Michigan College**

Since 2007, the Underwater Archaeology Program at Northwestern Michigan College has been surveying submerged cultural resources in both America and Europe by utilizing sector-scanning sonar equipment developed by Kongsberg Mesotech (Vancouver, Canada). This presentation will illustrate the dramatic results from archaeological site surveys, the methodology of deployment and how this new equipment can contribute to the development of rapid, highly detailed underwater archaeological survey. Building on this success, the Nautical Archaeology Society (UK), in partnership with the underwater archaeology program at Northwestern Michigan College, has been conducting maritime archaeology field schools over the past four years. These courses have generated substantial original underwater research in Grand Traverse Bay and along the Sleeping Bear Dunes National Lakeshore.

Demonstrations

10:00am–4:00pm

Front Lawn (Between the parking lot and the front entrance)

Archaic Hunting Skills

Presenter: **Mike Mauer, Michigan Archaeological Society**

Practice hitting a deer target using darts and an atlatl (spear thrower) like those used in Michigan forests thousands of years ago.

Deciphering a Fur Trader's Camp

Presenter: **Eric Perkins, Michigan Historical Center**

Can you read clues of the artifacts left behind from a fur trader's camp? Test your knowledge as you travel back to the 18th century to meet the trader and connect the archaeological clues with the objects in his camp.

2nd Floor Museum

Flintknapping

Presenter: **Bob Love, Michigan Flintknappers and Huron Valley Chapter of the Michigan Archaeological Society**

How did people hunt and butcher game before there were guns and steel knives? How did they tan hides or chop down trees using only tools made of bone and stone? Watch how people made stone tools to get the job done.

Seeds, Ships and Supper

Presenter: **Dr. Laurie Perkins, Michigan Historical Center**

Stop by for supper! Sit down for a re-created 19th-century repast and learn how farm women spiced up a meal. Grind seeds to make mustard and learn how clipper ships brought ingredients from all around the world to the Michigan table.

Archaeology Information Station

10:00am–4:00pm

1st Floor Museum Rotunda

Archaeology Day Information

Pick up your **FREE 2014 Michigan Archaeology Poster**
(There is an additional table in the 2nd floor gallery.)

Michigan State Historic Preservation Office Programs

Bethany Berdes

Michigan Department of Transportation Archaeology

Chris Stephenson and Dan Lauterbur

Michigan Historic Preservation Network

Elaine Robinson, Katie Kolokithas and Amara Frontczak

Conference on Michigan Archaeology and Michigan Archaeological Society

Dr. Michael Hambacher

Kids' Activities

10:00am–4:00pm

1st Floor Museum Time Lab

Mock Excavation: Look for pieces of the past in a mock excavation and learn how archaeologists document sites.

Excavations begin every half hour. Be sure to pick up your kids' activity book.

1st Floor Museum Learning Lab

Pinch Pot Making: Practice making pottery much as people did a thousand years ago.

Dr. Chris Espenshade, Commonwealth Cultural Resources Group Inc.

(Thank you to Commonwealth Cultural Resources Group for donating the materials.)

Walk with a Mastodon: Compare your stride and height with this extinct animal and learn about hunting 10,000 years ago.

A “mammoth” photo opportunity!

Exhibitors

10:00am–4:00pm

2nd Floor Museum Galleries

The Shipwreck Pewabic and 19th-Century Salvage

Wayne Lusardi, State Maritime Archaeologist, Thunder Bay National Marine Sanctuary
Dr. John Halsey, State Archaeologist (Retired)

Underwater Robotics and Shipwreck Exploration

Dr. Mark Gleason and Dr. Mark Schwartz, Grand Valley State University

WSU Research in Metropolitan Detroit and Southeastern Michigan 2013–2014

Dr. Thomas Killion, Dr. Krysta Ryzewski and Daniel Harrison, Wayne State University

Saving the Past, Promoting Progress: CRM Archaeology in Detroit

Dr. Robert Chidester, Kate Hayfield and Colene Knaub, Mannik & Smith Group Inc.

Fort St. Joseph Archaeological Project

Western Michigan University Department of Anthropology

Community-based Archaeology with the Ziiibwing Center of Anishinabe Culture & Lifeways

Shannon Martin, Ziiibwing Center

Warner Site

Tim Bennett, Michigan Archaeological Society

How Old Is That Arrowhead? Michigan Spear and Arrow Point Types and Ages

Dan Wymer, Michigan Archaeological Society

Site Collections from Saginaw County

Les Shuster, Saginaw Chapter of the Michigan Archaeological Society

Coalwood Archaeology Project

Western Michigan University Department of Anthropology

Apple Island Archaeology Project

Western Michigan University Department of Anthropology

Current Archaeological Research at CMU

Dr. Sarah Surface-Evans, Central Michigan University

MSU Campus Archaeology Program

Dr. Lynne Goldstein and Kate Frederick, Michigan State University

-  Women's Restrooms
-  Elevator Access to Mezzanine Levels
-  Security Office/ Lost & Found

To Learn More About Michigan Archaeology

Visit the State Archaeologist online at michigan.gov/archaeology. From there you will find links to information about archaeological projects in Michigan, including some of the projects featured at Archaeology Day.

Join the Michigan Archaeological Society as it explores the past. There are local chapters across the state, and meetings are open to the public. Many libraries carry the society's journal, *The Michigan Archaeologist*. Visit the MAS website for details at miarch.org.

Check out **Retrieving Michigan's Buried Past: The Archaeology of the Great Lakes State**, edited by John R. Halsey and Michael D. Stafford (1999). This book is a comprehensive overview of our state's archaeological heritage. (*Out of print.*)

Look at **Beneath the Inland Seas: Michigan's Underwater Archaeological Heritage**, edited by John R. Halsey and Wayne Lusardi (2008). This book looks at the archaeology of shipwrecks and other maritime resources on the bottomlands of the Great Lakes.

To Learn More About the Preservation of Archaeological and Above-Ground Historic Resources

Visit the State Historic Preservation Office at michigan.gov/shpo. From there you will find information about the National Historic Preservation Act of 1966, recognition and financial incentive programs such as the National Register of Historic Places, the Michigan Lighthouse Assistance Program and the Federal Historic Preservation Tax Credits that assist with the preservation of Michigan's historic sites.

NOTICE: This public event is being photographed and/or video/audio recorded for dissemination through websites, print and other media by the Michigan Historical Center, Department of Natural Resources, and the State Historic Preservation Office, Michigan State Housing Development Authority.

Photos
