PLACE MATTERS
MICHIGAN MAIN STREET
Michigan Main Street

Main Street, two words that evoke nostalgic feelings and warm memories in many people. That’s proof that place matters, and that main streets exist as places of civic pride and community congregation. They are a reflection of what we love about our towns and our neighbors.

The Michigan Main Street program exists to help communities develop main street districts that attract both residents and businesses, promote commercial investment and spur economic growth.
HOW CAN WE HELP YOUR COMMUNITY?

Michigan Main Street staff provides technical assistance and services to communities at three levels: Engaged, Select and Master. Each level is designed to assist the community in tackling increasingly sophisticated downtown revitalization efforts.

Over the past 15 years, the Michigan Main Street Center (MMSC) has facilitated real results in participating communities.

• Downtowns create a network that supports independent businesses and entrepreneurs.
• Downtowns provide identity and cultural value to the region.

The Main Street Approach® is a unique, historic preservation based economic development strategy that focuses on leveraging existing social, economic, physical and cultural assets to energize community revitalization efforts and help manage success for the long term. The approach leads to tangible outcomes that benefit the entire community through encouraging communities to enact long-term change while also implementing short-term, inexpensive and place-based activities that attract people to the commercial core and create a sense of enthusiasm about the community.

The Main Street Approach is a methodology consisting of three integrated components:

1. The vision provides a foundation for outlining the community’s identity, expectations and ideals for future development while being grounded in an understanding of the economic market realities of the district.

2. Transformation strategies identify long-term and short-term actions that provide a clear sense of priorities and direction to help move a community closer to implementing their vision. Work on these strategies should align with the Main Street Four Points® of organization, promotion, design and economic vitality.

3. The Main Street organization must show visible results that can only come from implementing action items and completing projects in the short-term and long-term. Main Street must focus on measuring progress and results in order to justify and demonstrate the wise use of scarce resources.

<tr>
<th>ECONOMIC VITALITY</th>
<th>DESIGN</th>
</tr>

<tbody>
<tr>
<td>Economic vitality strengthens the existing economic assets while diversifying the economic base of the Main Street District to support and improve profitability. The goal is to build a strong commercial district that creates a supportive environment for small businesses, entrepreneurs and consumers. <strong>Examples of economic vitality activities include:</strong> analyzing current market forces, providing a balanced commercial mix, supporting and expanding existing businesses, recruiting new businesses, supporting housing options, developing infill space, and converting unused or underused commercial space into economically productive property.</td>
<td>Design capitalizes on and enhances the visual aspects of a Main Street District to create a safe, appealing and inviting atmosphere for people to shop and spend time. The physical elements such as the storefronts and building architecture, streetscape, public art, street furniture, parking areas, and public spaces are used to convey a positive image for the downtown. <strong>Examples of design actions include:</strong> improving the physical appearance of the Main Street District, quality maintenance practices, historic building rehabilitation and adaptive use, and design review processes.</td>

<th>ORGANIZATION</th>
<th>PROMOTION</th>
</tr>

<tbody>
<tr>
<td>A successful Main Street organization builds consensus between the many vested stakeholders throughout a Main Street District to ensure everyone is mobilized and working toward a shared vision for the future of the district. Organizational structure can take many forms depending on community capacity. <strong>Examples of organization actions include:</strong> fundraising, volunteer recruitment and development, public relations, fostering collaboration between stakeholders, and developing work plans to guide the organization’s work.</td>
<td>Effective promotion creates a positive image of the Main Street District to instill community pride and encourage commercial activity and investment in the area. Promotions can be used to communicate the unique characteristics of a Main Street District to spark interest in shopping, dining, living or investing in the community. <strong>Examples of promotion actions include:</strong> marketing an enticing image, social media campaigns, street festivals, parades, and retail or other special events.</td>
