Activity Description:

The City of Beaverton is working to construct infrastructure improvements within the City limits. These infrastructure improvements are targeted at providing residential opportunities that are designed to current storm water regulations and protected from most flooding scenarios. The proposed improvements include storm water managment including runoff control and water quality, sanitary sewer, water main and street. These improvements will be located near the intersection of Terry Diane and Glidden Streets in Beaverton as well as Saginaw Street from Seeley to the west end and west end west. It also includes a Loop Street from Brown Street to Tonkin Street in Beaverton.
The scope of work includes infrastructure studies, surveying and natural resource evaluation, a conceptual site development plan with infrastructure, conceptional architecture and residential units, construction estimating and color rendering of conceptual development plan.¿

Location Description:

128 Saginaw Street, Beaverton MI 48612

Activity Progress Narrative:

Project fully drawn, conditional closeout underway.
