CINDY CONN BRINGS
GOOD VIBES TO PEOPLE
IN DOWNTOWN HOWELL
AT VIBOLOGY

"I've been into spirituality, psychic readings and those kinds of things since I was a teenager. My mom took me to a psychic when I was 15 or 16 and I got hooked. That's what eventually led me to open Vibology here in Howell.

For someone who's new, I can direct them to educational books and personally answer any questions they may have about things like crystals, angel numbers or animal spirits. If I don't have the answer, I can help them find it! We also have several different psychic readers here throughout the week.

I opened in March 2020, right before the pandemic, so I don't know what normal is for a business! But I feel like everybody has been really supportive, especially here in the Alley District. We have a lot of cool events in the alley and that's super helpful for business.

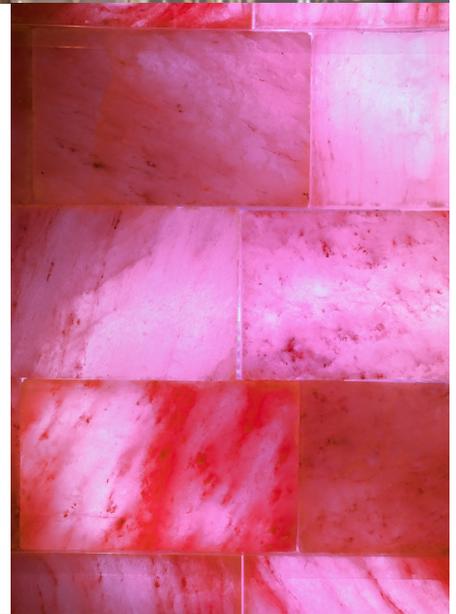

I love the people here in Howell and the people who come into my store. I love to help them, talk to them and get to know the regulars. It's just so much fun, and that's what we're all about here: good vibes only. I want people to walk in here and feel different, feel better."
